## TIP OF THE MONTH

As temperatures rise, it's important to keep our furry friends safe from the dangers of summer heat. Dogs can easily overheat, especially breeds with thick coats or short snouts. Always provide plenty of fresh, cool water and shade when outdoors. Avoid walking your dog on hot pavement, as it can burn their paws—if it's too hot for your hand, it's too hot for them! Limit exercise during the hottest parts of the day and never leave dogs in parked cars, even for a few minutes. At our facility, we prioritize your dog's comfort and safety with climate-controlled spaces, shaded play areas, and constant access to water. Let's work together to keep tails wagging all summer long!

# ANNOUNCEMENTS

**By training in CGC, you and your dog will deepen your bond and become a more connected team. Not only will you and your dog learn the basics of dog training and master skills like sit, down, and stay, but your dog will become a welcomed community member when out in public.**

**The CGC title is a prerequisite for many therapy dog certifications, as well as a great introduction to more advanced dog sports and activities.**
